Dear Mr. Yazici,

Thank you for your prompt reply. I am enclosing contract which you signed in Rijeka in March, with previous ECU President.

According to my information deposit fee stipulated by contract have not been paid, and also ECU didn't receive a bank guarantee. Given that the competition dates are too close, we will not insist on these details, but I kindly ask you 20% of prize fund to be paid within the period predicted by contract (before the tournament).

Certainly, we must also check if there are financial obligations of ECU to your federation.

Frankly, I find it necessary to introduce a serious financial discipline and compliance with all provisions of the contracts which were signed and on that I will work hard.

I was surprised that my well-meaning proposal concerning Appeal Committee members encountered such a reaction. I simply wanted to help. For example for Championship in France, Mr. Danailov himself appointed President of the Appeal Committee, while he accepted proposal of organizers for two members. So, there are no restrictions, but also no guarantee. For me the easiest way was to provide you with a list of Committee members appointed by the President, but I felt that my question goes to the spirit of mutual respect.

The rules are such that conflict is simply not possible and I believe that you will agree with me.

And finally, what perhaps at this moment is the most important and most urgent: **the European Chess Union is ready to fully confirm your proposal regarding dates and schedule. Can we now consider that they are final because I have a lot of inquiries from the European Federations, related to that information?**

I expect new information from you as soon as possible.

Best regards,

Sava Stoisavljevic

ECU Secretary General
